About company:

History :

Universal Pharmaceutical Industries “**UNIPHARMA**“ is one of the advanced pharmaceutical firms, based in Damascus – Syria, started production in Aug 1994.

UNIPHARMA is complying with cGMP 's standards and is awarded the quality ISO 9001.

Company Profile:

UNIPHARMA produces medicines which cover most of the therapeutic categories. Its production output is about 45 000 000 units/year, while its full capacity can reach 80 000 000 units.

Big part of those products are produced “under license “from well-known multi-national companies.

Thus, **UNIPHARMA**, gets benefit of all licensors valuable contribution, technical assistance and know-how which serve as basic support in **UNIPHARMA** manufacturing activities. Such cooperation is shown and reflected in its products quality “ Safety & Efficacy“ and also in exporting those products of high quality to foreign markets where **UNIPHARMA**'s products own an increased demand. (pls revert to the attached list of products & licensors and to our website <http://www.unipharma-sy.com>).

Mission

To provide high-quality pharmaceutical / health care products that exceed customers expectations in terms of quality, convenience & cost effectiveness.

This is realized through local manufacturing of our own branded generic and under licensed branded products, and through importing, exporting, marketing and co-promotion of national & multinational pharmaceutical products.

Vision

To expand and grow **UNIPHARMA**'s business, To maintain its position among the top three Syrian pharmaceutical companies in the local market & abroad, through having strong presence in the local, Asian, African & European markets.

Our vision is also to be the first Syrian pharmaceutical company to have a strong R & D division to develop its own new product formulas in addition to maintaining the top quality of existing products.

Marketing & Export

UNIPHARMA has established a reliable effective promotional system supported by about 300 scaled, qualified Reps.

UNIPHARMA ensures market satisfaction through the application of electronic communication net system, allowing getting fast and instant feed-backs of all regional distributors.

Besides, **UNIPHARMA** is exporting to several Arab, Asian & African countries applying the up-to-date method of follow-up by studying the pharmaceutical markets and ensuring a complete contact with the Medical Corps at the importing countries.
